Languages & Config:

TypeScript, JSON, YAML

Work History

Full-Stack Developer & DevOps Engineer Jan 2026 – Present

North Sea Parts | Marcos Highway, Antipolo City, Metro Manila, Philippines

Refactor legacy **Nuxt/NestJS** apps and migrate projects to latest versions while maintaining APIs, deployments, and production stability.

Full-Stack Developer & DevOps Engineer Sep 2021 – Jun 2025

North Sea Parts | Marcos Highway, Antipolo City, Metro Manila, Philippines

Designed and maintained full-stack web applications using **Vue 3, Nuxt 3, Node.js, NestJS**, and **MongoDB**.

Built REST APIs, authentication, authorization, and third-party integrations using **JWT, Passport.js**, and external services.

Implemented state management, persistent storage, and real-time notifications with **Pinia** and **Firebase Cloud Messaging**.

Managed deployments and production services using **Docker, PM2, Jenkins, Nginx, Cloudflare**, and **Google Cloud Platform**.

Optimized frontend performance, database design, secure file handling, reports, forms, and automated email workflows.

Used **Cypress, Jest, ESLint, Prettier, Git**, Ubuntu, Debian, Ionic Vue, Capacitor, and Android Studio.

Verification Specialist Apr 2019 – Aug 2020

Akulaku | IBP Tower, Mandaluyong City | Under Agency

Reviewed customer information and supported verification workflows with accuracy, confidentiality, and timely processing.

Education

Bachelor of Science in Information Technology

Pamantasan ng Lungsod ng Marikina, Metro Manila, Philippines

Graduated: April 2019

Completed Web Development Internship at Nets Electrical Services (2018 - 2019).

Professional Development

Since 2021, continued learning through Udemy, LinkedIn Learning, Brilliant, freeCodeCamp, Codewars, HackerRank, Vue School, and NestJS courses.
